

# LALIT JAIN INDUSTRIES PVT. LTD.

*The Complete House of Self Adhesive Tapes*

Lkj<sup>®</sup>

Prateek<sup>®</sup>

Mr. Bond<sup>®</sup>

PTK<sup>®</sup>

Lalit Jain Industries Pvt. Ltd., founded by Late Mr. Lalit Kumar Jain, is a renowned name in the industrial adhesive tapes sector. With over 35 years of experience, the company has established a strong presence across India.

As a leading player in the industry, Lalit Jain Industries Pvt. Ltd. specializes in providing innovative solutions for various sectors, including EV, FMCG, printing, and export-oriented industries. The company offers a comprehensive range of tapes designed to meet diverse needs in packaging, manufacturing, construction, and more. Known for their high quality, reliability, and durability, LJIPL tapes are ideal for securing packages, bonding materials, and protecting surfaces.

The company has also started offering eight variants of double-sided tissue tapes, further expanding its product portfolio to cater to specific industry requirements.

Driven by a commitment to innovation and customer satisfaction, LJIPL has become a trusted partner for businesses of all sizes. The company continuously invests in research and development to create new solutions that cater to evolving market demands, ensuring products that deliver exceptional performance and meet stringent quality standards.

Additionally, LJIPL is emerging as a leading adhesive tape and insulation material solutions provider in the EV industry, showcasing its adaptability and forward-thinking approach.

The company is led by two directors, Mr. Prateek Jain and Mr. Shikhar Jain, who are dedicated to upholding its values and vision. Under their guidance and with the collective expertise of the team, LALIT JAIN INDUSTRIES PVT. LTD continues to grow and expand its reach, maintaining its position at the forefront of the adhesive solutions industry in India.

Overall, Lalit Jain Industries Private Limited has built a solid reputation in the adhesive tape industry and remains committed to delivering excellence.

# DOUBLE-SIDED TISSUE TAPES

Double-sided tissue tapes are thin, flexible adhesive tapes with adhesive on both sides, commonly used for bonding, mounting, and laminating purposes. They're ideal for applications requiring strong adhesion on materials, like paper, plastic, and fabrics, and are often used in the print and packaging industries, crafting, and for general home or office use. These tapes come with a tissue paper carrier in between, which makes them easy to tear by hand and offers better flexibility and conform ability on curved surfaces.

## PTK<sup>®</sup> 700

Introducing accurate solvent based 70 microns double sided tissue tapes with your trusted brand "PTK" printed liner. PTK<sup>®</sup> 700 comes with a superior release paper for seamless unwinding of the tape.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for mono cartons, fancy invitation boxes, high end chrome posters, paper wrist bands, woven labels and garment labels etc..

## PTK<sup>®</sup> 800

Introducing accurate solvent based 80 microns double sided tissue tape with your trusted brand "PTK" printed liner. PTK<sup>®</sup> 800 comes with a superior release paper for seamless unwinding of the tape.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for mono cartons, tags, dome stickers, fancy invitation boxes, high end chrome posters, paper wristbands, woven labels and garment labels etc..

## PTK<sup>®</sup> 900

Introducing accurate solvent based 90 microns double sided tissue tape with your trusted brand "PTK" printed liner. PTK<sup>®</sup> 900 comes with a superior release paper for seamless unwinding of the tape.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for metallic name plates, mono cartons, tags, dome stickers, fancy invitation boxes, high end chrome posters, paper wristbands, woven labels and hi end garment labels etc..

## PTK<sup>®</sup> 1000

Introducing accurate solvent based 100 microns double sided tissue tape with your trusted brand "PTK" printed liner. PTK<sup>®</sup> 1000 comes with a superior release paper for seamless unwinding of the tape.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for metallic name plates, mono cartons, tags, dome stickers, fancy invitation boxes, high end chrome posters, paper wristbands, woven labels and high end garment labels etc..

## PTK<sup>®</sup> 910

PTK<sup>®</sup> 910 is a premium adhesive-based, high-performance double-sided tissue tape designed for reliable bonding across a wide range of applications. Engineered for strong adhesion and consistent performance, it comes with the trusted quality and assurance of the PTK<sup>®</sup> brand.

### Applications

- Applied to different kinds of materials, such as wood, metal, glass, paper, painting and various plastics and textiles.
  - Good adhesion to LSE materials such as PP, PE, Coated paper.
  - Suitable for Nameplates, Membrane switches, high end dome labels, Polycarbonate Stickers, Chrome labels etc..
  - *The product is an excellent alternative to similar high-quality variants of various international brands.*
- \*Can be sliced in upto 500m length

## PTK<sup>®</sup> 1200

PTK<sup>®</sup> 1200 is a premium adhesive-based, high-performance double-sided tissue tape designed for reliable bonding across a wide range of applications. Engineered for strong adhesion and consistent performance, it comes with the trusted quality and assurance of the PTK<sup>®</sup> brand.

### Applications

- Applied to different kinds of materials, such as wood, metal, glass, paper, painting and various plastics and textiles.
  - Good adhesion to LSE materials such as PP, PE, Coated paper.
  - Suitable for Nameplates, Membrane switches, high end dome labels, Polycarbonate Stickers, Chrome labels etc..
  - *The product is an excellent alternative to similar high-quality variants of various international brands.*
- \*Can be sliced in upto 400m length

## PTK<sup>®</sup> 1600

PTK<sup>®</sup> 1600 is a premium adhesive-based, high-performance double-sided tissue tape designed for reliable bonding across a wide range of applications. Engineered for strong adhesion and consistent performance, it comes with the trusted quality and assurance of the PTK<sup>®</sup> brand.

### Applications

- Applied to different kinds of materials, such as wood, metal, glass, paper, painting and various plastics and textiles.
  - Good adhesion to LSE materials such as PP, PE, Coated paper
  - Suitable for metal nameplates, membrane switches, high end dome labels, chrome labels, etc..
  - *The product is an excellent alternative to similar high-quality variants of various international brands.*
- \*Can be sliced in upto 400m length

## Mr. Bond<sup>®</sup>

Mr. Bond<sup>®</sup> BLUE is a unique 70 microns hot-melt based adhesive with printed liner, with superior strength and release paper.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for posters, stationery, economical invitation boxes, paper wristbands etc.

## Mr. Bond<sup>®</sup>

Mr. Bond<sup>®</sup> RED is a unique composition of adhesives with 80 microns thickness, excellent printed release paper.

\*Can be sliced in upto 500m length

Applications:

\*Ideal for posters, stationery, economical invitation boxes, paper wristbands etc..

*Additional Feature*

\*It is an economical substitute to PTK 700 in terms of only adhesion strength.

## Lkj® BOPP SELF ADHESIVE LAMINATION TAPE

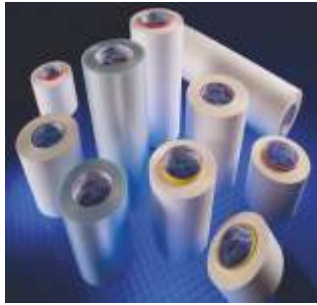

Lkj® BOPP Self Adhesive Lamination Tape is a clear, high-gloss BOPP film coated with pressure-sensitive adhesive. It is designed for cold lamination of printed surfaces, providing instant bonding without heat and giving a premium protective finish to packaging, printed sheets, diaries, books, cartons, labels, and promotional materials.

**Size :** 1070mm X 400m

Can be cut in custom sizes as per requirement.

### Applications

- Label over-lamination • Diaries, notebooks, and book covers • Wedding & invitation cards
- Promotional items, catalogues, and brochures.
- Premium box lamination (FMCG, electronics, cosmetics, gifting)
- Surface protection during handling and packaging

## PAPER & FILM APPLICATION TAPES

- Available in paper and transparent film.
- Many Grades available.
- The paper products can be used for standard graphical applications and can also be used for laser masking.
- The standard and premium paper application tapes are of very high quality as well as the fill products which are very clear.
- The excellent transparency makes the film range the perfect application tape for multi-color signs.
- Also available application tapes from **AVATAACK** **rtape** **POLYTRON**

## TAPES FOR PRINTING APPLICATIONS/PLATE MOUNTING (FLEXO TAPE/PLASTER TAPE/BLOCK MOUNTING TAPES)

Mr Bond® Double-sided cloth tape is commonly used in flexo graphic (flexo) printing for mounting printing plates onto cylinders or sleeves. This tape has cloth backing with adhesive on both sides, allowing for strong bonding while providing flexibility and shock absorption.

### Features:

**Adhesion:** High-tack adhesive on both sides prevents slippage during printing.

**Cushioning:** The cloth backing absorbs vibrations, enhancing print quality.

**Ease of Removal:** leaves no residue, reducing maintenance.

**Heat and Chemical Resistance:** Withstands heat and chemicals, ensuring durability

Also Available : Highly Specialized tapes of international brands.

## DOUBLE SIDED POLYESTER TAPES

Self Adhesive tape consisting of a PET backing and modified acrylic adhesive with transparent Red colour PE Liner. Excellent resistance to demanding environment.

- PRATEEK® Double Sided Polyester Tape is a High bond tape used in many applications which require high tensile strength and long term aging.
- PRATEEK® Double Sided Polyester Tape provides a strong rigid bond for most demanding external applications.
- It is excellent for bonding rigid extrusions and is ideal for applications requiring an almost transparent finish
- Most suitable for fixing of reflections foil to LCD frame, splicing of thin plastic films, and flex to flex joining.
- Excellent handling performance in converting process mounting of metal or plastic badges and signages.
- Various Thickness Available: 130, 160, 180 & 210 microns

## MR. BOND® SPLICING TAPES

- MR. BOND® splicing tape is made keeping in mind the requirements of flexible packaging industry.
- MR. BOND® splicing tape has very high tack properties on polyester film base for secure splicing at high speed.
- MR. BOND® splicing tape has special colored polyester for identifying the joint.
- Readily Available Color: Red, whereas other colors can also be made on demand.
- MR. BOND® Splicing Tapes can be used for high-speed flying splices and zero speed splices on most grades of paper such as newsprint, clay coated, corrugated stocks.
- Bond strength is dependent upon the amount of adhesive-to-surface contact developed. Firm application pressure helps develop better adhesive contact and improve bond strength.
- To obtain optimum adhesion, the bonding surfaces must be clean, dry, and well unified.

## BOPP PACKAGING TAPES PLAIN, PRINTED & Coloured

- Suitable for carton box sealing and stationery use.
- Grades Available: Light, medium, and heavy-duty packaging.
- Lengths: Available in 650 meters and 1000 meters for automatic dispensing machines.
- Colors: Transparent, Brown, Milky White, Red, Green, Blue, Black, and more.
- Printed Tapes: Efficient for general advertising. Company logos and messages can be printed in up to 5 colors. Options for reverse printing and half-tone effects are available.
- Standard Message Tapes: Options include "Handle with Care," "For Export," "OK TESTED," "Fine Quality PVC Pipes," and more.
- Cost-Effective: Printed tapes are often cheaper than stickers.
- Branding Tapes: Available for customized branding needs.

## KRAFT PAPER TAPES

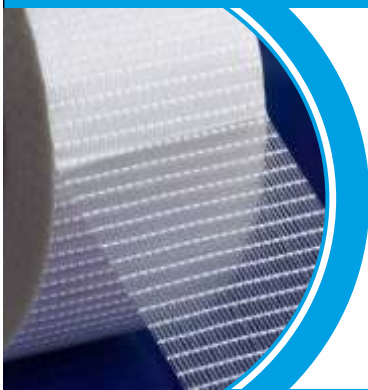

- Kraft paper tape is quite versatile and offers several uses across different applications:
- **Packaging:** Ideal for sealing boxes and packages securely, especially for eco-conscious businesses as it is biodegradable and recyclable<sup>1</sup>.
- **Export Packing:** Provides strong adhesion and tear resistance, making it suitable for heavy or overfilled cartons.
- **Professional Appearance:** Adds a natural, earthy look to packages, enhancing their aesthetic appeal.
- **Tamper-Evident Sealing:** Once applied, it forms a permanent bond that needs to be ripped open, making it a good choice for deterring tampering.
- **Crafting and DIY Projects:** Useful for gift wrapping, decorations, scrap booking, and other creative projects.
- **Surface Protection:** Can be used to create clean paint lines, protect surfaces from paint splatters, or hold materials in place during projects.
- **Labeling:** Printable surface allows for easy labeling and branding.

## Lkj<sup>®</sup> FILAMENT TAPES

A self adhesive tape which has been specially designed for applications requiring a high breaking strength. This tape has a film backing and rubber adhesive. Woven glass fibers reinforce the backing, making this product extremely strong when used for heavy packaging where it can replace metal and polypropylene strapping to great advantage.

- For Packing of Heavy weight cartons
- For Palletizing
- For Strapping
- For sealing of metalcoils of pipe bundling.
- Widely used for cricket bat protection.

## STRETCH FILM

Stretch film is a highly stretchable plastic film that is wrapped around items. The elastic recovery keeps the items tightly bound.

### Functions & benefits:

- Improved stability of products or packages, forming a unit load.
- More efficient handling and storage of unit loads
- Some degree of dust and moisture protection
- Some degree of tamper resistance and resistance to package pilferage
- Some degree of sun protection.
- General purpose and machine grade available.

## FLOOR MARKING TAPES

Floor marking tape is incredibly versatile and can be used in various settings to enhance safety, organization, and efficiency. Here are some common uses:

- **Creating Safety Borders:** Marking hazardous areas around machinery and chemicals to prevent accidents.
- **Designating Equipment Placement:** Indicating where equipment should be stored or placed, ensuring everything has a designated spot.
- **Marking Routes:** Guiding vehicle and foot traffic within facilities to improve flow and reduce the risk of collisions.
- **Identifying Trip or Fall Hazards:** Highlighting potential hazards to prevent accidents.
- **Storage Segmentation:** Identifying different storage areas for better organization.
- **Compliance:** Ensuring workplaces meet health and safety standards by clearly marking zones.

These tapes come in various colors, each often used to convey specific information, such as yellow for caution or red for danger.

## SPF (SURFACE PROTECTION FILM)

We offer a wide variety of superior quality Surface Protection Films, which are widely used for providing complete protection to surfaces from damages.

### Features:

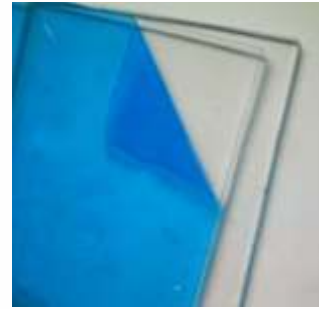

- Leaves no glue on the target surfaces
- Moisture resistance
- High elasticity

### Benefits:

- Protect surfaces from pollution, scratches during the process of production, transportation, and installation.
- Leaves no glue on the target surfaces
- Our film doesn't just protect the products, it protects them efficiently with a clear film that doesn't sacrifice function for aesthetics.
- Please request for technical & quotation as per your requirement.

### Technical specification :

For technical specification in for technical SPF we require minimum 1 square feet piece of product for trial. You are requested to send us inquiry with complete details.

## Mr. Bond® MASKING TAPES (PAINTER TAPE)

- MR. BOND® masking tape is a pressure sensitive tape.
- A must have product for carpenters and painters work area.
- Used for Paint Masking, Sunmica Pasting on doors/Almira/other furniture, used for laminate pasting, used in construction sites and car body repairing and painting applications etc.
- Used widely in Shoe Industry for reinforcements.
- Holds Substrate Firmly.
- Residue Free, easy tear from roll, writable.
- General Purpose and high temperature grades also available

## ELECTRICAL TAPES

• PVC insulation Tapes: General Purpose Electrical Tapes used for domestic as well as Industrial use. Various Sizes and Lengths Available. ISI and Non ISI Grades also available

• Wire Harness Tapes: Specialised tapes available for automobile and submersible pumps.

• Polyester Tapes: Widely used in transformers, capacitors, LED TV's • Available in various sizes and colours

• Sublimation Tape: Widely used for Sublimation Printing, Residue free and does not melt even at a very high temperature.

• Black Friction Tapes: Mainly used to insulate splices in electric wires and cables. Because the adhesive is impregnated in the cloth, friction tape is sticky on both sides. The rubber-based adhesive makes it an electrical insulator and provides a degree of protection from liquids and corrosion.

• ALUMINIUM FOIL TAPES : For general purpose seaming, patching and sealing. • Highly suitable for sealing off air conditioning and cool/warm air flow ducting. • Can be used for both High and Low Temperatures.

• For Sealing Joints in ducting providing a flame retardant and vapor proof barrier.

## HEAT SEALING TAPES

Teflon Coated Fiberglass cloth Tape products combine the chemical, electrical and release properties of PTFE / Teflon and Silicone with the mechanical properties of woven fiberglass.

- Excellent chemical resistance.
- Excellent mechanical strength.
- Low friction non-sticking smooth surfaces.
- Dimensional stability under heat and pressure.
- Superior heat and cold resistance.
- Class H Insulation rating (180° C)
- High dielectric strength.
- Low electrical losses-non tracking.
- Also available Nitto 923S  NITTO DENKO for heating rollers.

## PALLET MASKING TAPE

Pallet masking tape is a specialized tape used primarily in the textile screen printing industry. It serves as a protective layer for pallets, helping to reduce clean-up time and extend the life of the pallets. Here are some key features and uses:

**Protection:** It prevents pallets from getting dirty with ink, fluff, and adhesive. When the tape gets dirty, you can simply peel it off and replace it.

**Heat Resistance:** Many pallet masking tapes are heat-resistant, making them suitable for use in high-temperature environments.

**Easy Removal:** The tape is designed to be easily removable without leaving residue, which simplifies the cleaning process.

**Versatility:** It works well on various materials, including wood, aluminum, and steel pallets.

Log roll 48"x 100 yards (300 foot)/50 Yards (150 foot) available.

\* Can be sliced in different widths as per customer requirement

## Mr. Bond® SINGLE SIDED COTTON TAPES

Mr Bond® Single Sided Cotton tape is made from 100% fine insulated cotton substrate backed with strong rubber-based adhesive. Because of its strong adhesion strength and insulation properties, it is widely used in conductor wrapping, connection wrapping, interlayer coil insulation etc.

Die cut sizes and other thicknesses can also be customised as per requirements.

\* Available in White & Black Color.

## VARIOUS KIND OF FOAM TAPES

### DOUBLE SIDED FOAM TAPES

- Tape with both sides adhesive coating suitable for wall mounts, cable mounts & multi-applications.
- Excellent shock resistance, heat insulating, double stick, ultra flexibility
- Various grades available for wide range of bonding applications.
- Also Available highly specialized foam tapes from 

*Jumbo rolls of 2mm double sided Eva Foam also available*

### SINGLE SIDED FOAM TAPES

- Wide range of Single Sided Foam Tapes available in various thickness
- EVA and PE Base foam tapes available with hotmelt, solvent and acrylic based adhesive.
- Single Sided foam tapes are suitable for insulation purposes, Reducing vibration & blocks noise.
- Various foam tapes are Used in HVAC Equipment Panels, fiber free insulation alternative, metal to metal seals/gaskets/gap filler and wrapping chilled water lines
- Single Sided tapes are widely used for fixation of aluminium doors, panels, windows etc.

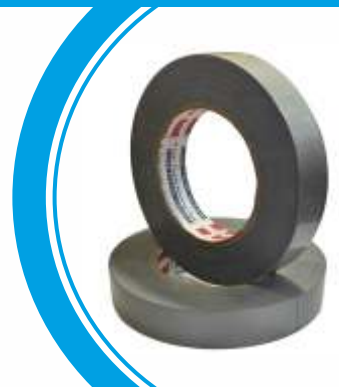

## LKJ® HBA (HIGH BOND ADHESIVE) ACRYLIC FOAM TAPES

- Used in structure glazing, aluminum composite panels, windows and door bonding and many other places
- LKJ® HBA tapes replaces rivets, bolts, welds and other mechanical fixings.
- Also Available in transparent color, this makes it a perfect solution for glass to glass bonding.
- Helps in cost cutting and increase productivity.
- Environment proof
- Available in various thickness: 0.4mm up to 3mm.
- Also Available highly specialized foam tapes from 

## Mr. Bond® Duct Tape

Mr Bond® Duct tape is a strong, flexible adhesive tape with a clothbacking and a waterproof polyethylene coating. Originally developed for quick repairs on military equipment, it is now widely used for repairs, sealing, binding, and crafting. Known for its strength and versatility, duct tape can stick to various surfaces and is available in a range of colors beyond the traditional silver. Its durability and resistance to water make it useful for both indoor and outdoor applications.

## POLYIMIDE TAPE

**Product Description:** Polyimide tape has high performance, reliability and durability, with a unique Combination of electrical, thermal, chemical and mechanical properties that can withstand extreme temperature, vibration and other demanding environments.

**Features:** High Performance polyimide tape offers Heat resistance, High Voltage Insulation, acid and alkali resistance, low voltage electrolytic. It is generally used to protect golden finger when PCB is in soldering tin furnace. Insulation of coil, wave soldering protection, electrical insulation, High temperature resistance, Sublimation Printing, residue free.

**Applications:** • LED Module / Board Bonding. • Efficient Heat Transfer Path between Heat Generating Components and Heat Sinks, Fans, Heat Spreaders, Heat pipes. • IC Chip Packing Heat Construction. • Printed Circuit Board. • Automotive Electronic Thermal Management such as Engine Control Units, ABS systems, Gear Control Units.

## ALSO AVAILABLE

Book Binding Tapes (All Colors available) • Gasket Tapes • Vent Tapes • Spacer Tapes • Security Tapes  
Anti Skid Tapes • Reflective Tapes • Stationary Tapes • Holographic Tapes • Stationery Foam Tapes  
Tapes for Shoe & Footwear Industry • Tapes for Signage & Label Printing Industry • HDPE Adhesive Tapes  
Thermal Conductive Tapes • Water proof Cotton Tapes • Residue Free packaging Tapes  
Tapes and other products for EV battery industry • Copper foil tapes • Nitrile Foam Tape

Also Available: Highly Specialised tapes of international brands

And their economical substitutes also available.
